Lunch	**Join us for complimentary lunch & networking beginning at 11:30. This is a great time for organizations to share their ideas!**
Welcome	**Pitt OAUG Announcements and Sponsor Introduction** **MAGNITUDE** SOFTWARE
Session 1	**Unified Business Analytics (UBA) for on-premise reporting from Oracle EBS, JDE, and Oracle Cloud Applications** *Sponsor presentation by Magnitude Software* Do you have multiple corporate divisions running multiple ERPs including, but not limited to, Oracle E-Business Suite, JD-Edwards or Cloud Applications? Are you interested in achieving near real time consolidated reporting or thinking about possibly adding a data lake to store your data? Learn more about your options for deploying data lakes or a SQL Azure data warehouse to support your Oracle EBA, JDE, Cloud and additional applications.
Session 2	**Welcome to the Jungle! Do you know your IT ecosystem?** *Presented by M&S Consulting* This presentation will address the ongoing challenges organizations have with tracking their IT systems. This is a case study that shows an organization that runs Oracle Applications and other Software products, the challenges of understanding all of the updates, notifications, patches and other informational items that come from their software vendors. We will demonstrate how to track these items and understand when to respond to these.
Break	
Session 3	**Oracle Database Deep Dive** *Presented by Oracle Corporation* Oracle will do a deep dive on Oracle Database • 18c • 12c • Oracle Autonomous Database • Oracle Database Exadata • Oracle Database in the Cloud or On Premise
